Summary

Backend engineer with 6 years building scalable Python APIs and distributed services on AWS.

Skills

Python, FastAPI, Django, SQL, PostgreSQL, REST API design, AWS (EC2, Lambda, RDS, S3),

Docker, Redis, Git, CI/CD, microservices

Experience

Senior Backend Engineer – Stripe, San Francisco (Mar 2021 – Present)

Built FastAPI microservices handling 3M requests/day with PostgreSQL and Redis. Designed REST APIs and async workers; cut p95 latency 40% via query optimization.

Deployed on AWS (Lambda, RDS, S3) with automated CI/CD pipelines.

Backend Engineer – Shopify, Ottawa (Jun 2018 – Feb 2021)

Developed Django + PostgreSQL services for the merchant billing platform.

Owned REST API versioning and backwards-compatibility for 200+ endpoints.

Education

B.S. Computer Science – University of Waterloo, 2018

Certifications

AWS Certified Developer – Associate
